A PARTNER GUIDE TO PAPERCUT MF'S

On-Prem OCR and Document Processing Pack

Turn scans into intelligent, text-searchable and editable documents in seconds, all processed and housed securely on-site.

Challenge

Customers in high compliance environments like healthcare, law enforcement, financial services, and many government agencies need to keep documents containing sensitive or private information under strict control at all times. Self-hosting the power of PaperCut's scanning automation and enhancement is the way to go.

If they have . . .

- Strict privacy regulations

- Data sovereignty constraints

- Regional cloud service constraints

- Poor cloud connectivity or bandwidth

- Underutilized existing server infrastructure

. . . PaperCut's On-Prem OCR and Document Processing Pack is the solution.

Solution

When customers need the absolute peace of mind that sensitive and confidential documents never leave their own infrastructure, they can enjoy the benefits of PaperCut MF's document processing and OCR features using the bonus security of the On-Prem OCR and Document Processing Pack.

Included in PaperCut MF Requires active M&S	**Optional extension pack** On-Prem OCR and Document Processing Pack
PaperCut MF Cloud Services perform OCR and Document Processing	Self-hosted OCR and document processing engine keeps all scan files within the customer's environment

Available for all brands that support Integrated Scanning (not available for Brother).

Benefits

3 ways the On-Prem OCR and Document Processing Pack improves the scanning experience

1. **Secure your scans** by keeping them close to home
2. **Give consistent user experience** regardless of where data is housed
3. **Create searchable and editable scans** with a few taps

Get it now

The On-Prem OCR and Document Processing Pack is priced as a flat fee per customer, covering as many embedded MFD's as you need to deploy on the customer's license. The Pack can be added to existing customer licenses at any time (with active M&S) or included in the initial license transaction for new customers.

Customers must have active M&S to be eligible for any upgrades to the Pack in the future.
